

Coding Assignment 2

1. Create a webpage with a table using table tag.
`<table></table>`
2. Name the webpage as index.html.
3. Upload the completed webpage to Canvas.

Instructions:

1. Use <table>, <th>, <tr> and <td> tags to create a table in index.html file.
2. The image below is an example of what you can do with <table>, <th>, <tr> and <td> and inline css3. Feel free to exercise your creativity to design your table.
3. You may use the code snippet below to start with your assignment.
4. Extra (optional): add hyperlink to some of the table grid.
5. Helpful resource:

Code Snippet:

```

<!DOCTYPE html>
<html>
  <head>
    <title>HTML5 Table</title>
  </head>
  <body>
    <table style="font-size: 60px">
      <tr>
        <th style="border: 1px solid red;">Items</th>
        <th style="border: 1px solid green">Qty</th>
        <th style="border: 1px solid blue">Price</th>
      </tr>
      <tr>
        <td style="border: 3px dashed gray">Apple</td>
        <td style="border: 7px inset orange">2 bags</td>
        <td style="border: 4px double teal">$6.99</td>
      </tr>
      <tr>
        <td style="color: green; font-size: 30px">Peanut Butter</td>
        <td style="color: Red; font-size: 20px;
          border-style: dotted solid dashed double;
          border-width: 9px; border-color: purple"> 1 bottle</td>
        <td style="color: blue; font-size: 100px; border: 10px outset yellow">$2.99</td>
      </tr>
    </table>
  </body>
</html>

```

HTML Table Example:

Items	Unit	Price	Qty	Total
Apple	1 bag	\$3	2	\$6
Peanut Butter	1 bottle	\$2.99	3	\$8.97
orange	1 dozen	\$1.5	2	\$3
Kind Bar	1 box	\$18.99	1	\$18.99
Bread	1 loaf	\$4.5	2	\$9
Coffee Bean	1 pound	\$15.76	4	\$63.04
