The homepage should be a 'splash' screen. A splash screen shows minimal content and is meant to be a welcome screen. An expected splash screen has a fullscreen background animated GIF, static image, or video.

Tasks:

About

This page should give me a quick history of your band/artists. We need to know who they are (couple paragraphs of text), what they look like (image), and bullet point details. These bullet point details (your lists) could be accolades, location, similar acts, career milestones, etc.

Tasks:
- x2 text blocks
- x2 list elements
- Image embedded into text block or list elements

- Figma (https://www.figma.com/)

If you use a digital design program, you can setup a canvas of 1,400px width by 1,000px height.

Remember as you start to layout content, your height can change and that's ok.
